

# KELLY MULLER

Spring Hill Elementary

"To say that Spring Hill Elementary School Clinic Nurse, Kelly Muller, has had a busy week is an understatement! Kelly called EMS for a medically fragile student who was experiencing low blood sugar and seizures and later that week, provided the life-saving Heimlich Maneuver for a student choking while passing in the hallway. The SHES staff, students and families feel blessed to have Nurse Kelly on site. Her calm demeanor and attention to detail always brings comfort to the many situations she encounters. Thank you, Nurse Kelly, for saving two precious lives this week!"

Kristen Tormey  
SHES Principal
